Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

The people of this country are taxed way too much as it is. Republicans are suppose to be conservative?? I sure do not see it that way. Since this new administration took over we are in war, way over our heads in debt again, the farm economy is running on poverty level, and our expenses go up. Think about this and make some cuts of your own. We in the agriculture community have no other way, so you do the same!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Carol Wise
